## Remarks on the structure proposed for 515 North Sierra Drive

My name is Shelley Kirkwood Cooper and the house I live in on North Sierra Drive is nestled in a neighborhood of classic homes, set back from tree-lined sidewalks, so picturesque it might be a movie set.

Many of these homes, original to the founding of Beverly Hills, were designed by architects the city recognizes on its list of Master Architects.

You can see from these photos what Sierra Drive looks like. Until now we have been spared the wanton destruction of classic homes, and the inappropriate buildings that have scarred other streets. Erecting the proposed structure at 515 North Sierra, as seen here, among these traditional homes will be like putting a black eye on the Mona Lisa.

Many residents on Sierra had planned to seek protection for our architectural heritage through historic overlay. But while commercial buildings and apartments can seek that status, sadly our ability to do that was taken away.

But still, we thought we had protection through the Design Review process. However, that safeguard turns out to be flawed. The two-track system of approval is not working. How is it that Track 2 is concerned with appropriate development and Track 1, the system under which this structure is reviewed, is not?

Residents should not have to live in fear every time a For Sale sign goes up on our streets. It is time to reevaluate and update the approval process for single-family homes and take steps to avoid the problems we have experienced with this property.

For example:

1. Neighbors should be notified when a request is received to demolish a house;
2. Plans for a replacement structure should be approved before permission is given to tear down the existing home;
3. Nearby residents should be contacted when new architectural plans are submitted; and
4. Tracks 1 and 2 should have the same objective -- to promote design that respects prevailing styles and neighborhood character.

I ask that you transfer the review process for 515 North Sierra from Track 1 staff review to Track 2 at the Design Review Commission where their objectives to control scale, ensure compatibility, respect prevailing styles and prevent overbuilding, can be applied.

## Metro wins ruling to continue with Purple Line Extension project

Metro received approval to move forward with the Purple Line Extension Project last week, after U.S. District Court Judge George Wu overturned a federal lawsuit brought against the Federal Transit Administration.

The lawsuit against the FTA was brought by the City of Beverly Hills and the Beverly Hills Unified School District, as they disputed the need for the subway project to tunnel under part of Beverly Hills High in order to avoid an earthquake fault along Santa Monica Boulevard.

Now, Metro can move forward with finalizing a \$1.2-billion federal grant and \$307-million federally-backed loan to help pay for the project's second phase between Westwood and La Cienega.

In his ruling, Wu also directed the FTA redo parts of the project's environmental studies, mainly dealing with seismic studies and methane near the Beverly Hills High and Century City. Metro has begun that work, according to an article posted in Metro blog *The Source*.

The federal grant and loan is being used together with money from Measure R, the half-cent sales tax approved by Los Angeles County voters in 2008 to fund several transit, road and other transportation projects.

Metro officials on Friday said they were grateful for the Judge's ruling and that they look forward to delivering a project that will safely and quickly serve transit riders on the chronically-congested Westside, according to *The Source*.

Legal fees from the city and the school district have exceeded \$10 million.

## Cabrillo relining to cost \$560K, take four months

Relining the Cabrillo Reservoir will cost roughly \$560,000 and take around four months, City of Beverly Hills Civil Engineer Vincent Chee said at the Public Works Commission meeting last week.

The city has awarded a contract to Travis Agricultural Construction.

"How can we fast track this project, because it feels like it's a really excellent, viable project?" Commissioner Ron

Shalowitz said.

Non-potable groundwater supplied by the Cabrillo Reservoir is currently used for a wide variety of municipal services, such as power washing the Business Triangle and street sweeping. The Public Works Department plans to implement a conveyance system so the water can be used at city parks and medians.

According to Chee, the city recently met with eight prospective firms for the design of the conveyance lines. The contract will be awarded in September.

The Cabrillo Reservoir was taken out of service in 1986 due to groundwater seepage.

## Council slams proposed public outreach process for Townscape development

A project proposal that first came before the City Council in February resurfaced on the study session staff report Tuesday. Fronted by Tyler Siegel of Townscape Partners, the mixed-use development would take over 6.5 acres of city property and 0.5 acres of private property along Foothill Road at Third Street.

But the Council vehemently opposed the three-phase public process proposed by MIG Consultants, a firm experienced in land-use planning and community engagement.

"I think that it may well be that the community wants a park there, and I think we need to know that," said Councilmember Julian Gold. "I don't want to prejudge that. The whole point here was really to ask the question: What do you want?"

In April, the Council approved an agreement with Angelo Gordon Real Estate requiring a \$1-million deposit. The agreement caps the initial costs at \$150,000.

Staff reached out to MIG to design a framework for the public outreach process. The three-phase approach would cost Townscape roughly \$112,000.

Councilmember Lili Bosse called the proposed procedure "the complete antithesis" of what the Council had directed.

"I can't even tell you enough how insulting I think this is," Bosse said.

Phase one, estimated to cost around \$40,000, would involve nine one-hour focus groups to engage stakeholders in a dialogue about the future of the site. The input obtained from these focus groups would inform a virtual town hall meeting.

"I think that not getting to a big community meeting until months into the process is not a process I could support," said Councilmember Kathy Reims.

During a citywide meeting planned for phase two, the community would be presented the results of a visual survey and introduced to details about the proposed project. The second

## NOTICE OF PUBLIC HEARING

**DATE:** August 25, 2016  
**TIME:** 1:30 PM, or as soon thereafter as the matter may be heard  
**LOCATION:** Commission Meeting Room 280A  
Beverly Hills City Hall  
455 North Rexford Drive  
Beverly Hills, CA 90210

The Planning Commission of the City of Beverly Hills, at its REGULAR meeting on Thursday, August 25, 2016, will hold a public hearing beginning at **1:30 PM**, or as soon thereafter as the matter may be heard to consider a request to allow the construction of a deck that covers a portion of a driveway that leads to subterranean parking to be located in a required side yard at the residential property located at **1011 Lexington Road**. The subject site is located in the Hillside Area of the City. Construction of the proposed project requires the following entitlements:

### Zone Text Amendment:

The proposed Zone Text Amendment would amend BHMC §10-3-2509 (Permissible Encroachments in Side Yards, Street Side Yards, Pad Edge Setbacks, and Rear Yards) to allow decks located at finished first floor level that cover portions of driveways that lead to subterranean parking as permissible encroachments in required side yards in the Hillside Area of the City. Said decks are currently allowed as permissible encroachments in the Central Area of the City. Additionally, BHMC §10-3-2409 would be amended to ensure consistency with the language proposed for the Hillside. Lastly, the Floor Area definition applicable to a single-family residential zone in BHMC §10-3-100 would be clarified to expressly exempt the subterranean space created below the proposed decks from counting as floor area.

The project has been reviewed pursuant to the California Environmental Quality Act (CEQA, Public Resources Code Sections 21000 et seq.), the State CEQA Guidelines (California Code of Regulations, Title 14, Sections 15000 et seq.), and the environmental regulations of the City. The project appears to qualify for a Class 3 Categorical Exemption pursuant to Section 15303 (New Construction or Conversion of Small Structures) and a Class 5 Categorical Exemption pursuant to Section 15305 (Minor Alterations in Land Use Limitations). The exemptions are applicable to projects characterized as construction of new, small structures accessory to a residence, as well as minor changes in land use limitations such as the amendment to the zoning code to allow decks located at finished first floor level that cover portions of driveways that lead to subterranean parking as permissible encroachments in required side yards in the Hillside Area of the City. Furthermore, allowing such decks in the Hillside would not result in additional grading as driveways that lead to subterranean parking are currently allowed structures in the Hillside, and the proposed decks would be covering the already-approved driveway structures. Therefore, the project has been determined not to have a significant environmental impact and the Planning Commission will consider exemptions from the provisions of CEQA as noted above.

Any interested person may attend the meeting and be heard or present written comments to the Commission.

According to Government Code Section 65009, if you challenge the Commission's action in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the City, either at or prior to the public hearing.

# NOTICE OF PUBLIC HEARING

**DATE:** August 25, 2016  
**TIME:** 1:30 PM, or as soon thereafter as the matter may be heard  
**LOCATION:** Commission Meeting Room 280A  
 Beverly Hills City Hall

 Beverly Hills, CA 90210

The Planning Commission of the City of Beverly Hills, at its REGULAR meeting on Thursday, August 25, 2016, will hold a public hearing beginning at 1:30 PM, or as soon thereafter as the matter may be heard to consider a request to allow an ancillary pet boarding facility within an existing retail space in a commercial building located at **9388 South Santa Monica Boulevard**. The proposed project requires the following entitlements:

**Zone Text Amendment.** The project includes a request to amend portions of the Beverly Hills Municipal Code (BHMC). The proposed Zone Text Amendment would amend BHMC §5-2-106, §5-2-107, § 10-3-100, § 10-3-1604, and §10-3-2003, and add BHMC § 10-3-1620.3 to allow ancillary pet boarding facilities that provide day and/or night pet boarding in retail establishments located in certain commercial zones through a Conditional Use Permit. The proposed Zone Text Amendment would establish criteria for pet boarding facilities that are ancillary to a retail space and, among other things, do not occupy more than 30% of the floor area of the retail establishment.

**Conditional Use Permit.** The proposed project includes a request for Conditional Use Permit to allow the establishment of ancillary pet boarding in an existing retail space located at 9388 South Santa Monica Boulevard (Pussy & Pooch). If approved, the Conditional Use Permit would allow up to 3,337 square feet of the existing 11,696 square feet of the pet retail business to be used for pet boarding (up to 35 animals at a time). If approved, the requested Conditional Use Permit would be contingent upon the proposed Zone Text Amendment being approved by the City Council and taking effect.

This project has been assessed in accordance with the authority and criteria contained in the California Environmental Quality Act (CEQA), the State CEQA Guidelines, and the environmental regulations of the City. Staff believes the project qualifies for Class 1 and Class 5 Categorical Exemptions pursuant to Sections 15301 and 15305 of Title 14 of the California Code of Regulations for minor additions and operational changes to an existing building, as well as minor changes in land use limitations. The proposed Zone Text Amendment would allow pet boarding as an ancillary activity in retail establishments located in certain commercial zones in the City. The Commission will consider whether the project is exempt from the provisions of CEQA.

Any interested person may attend the meeting and be heard or present written comments to the Commission.

According to Government Code Section 65009, if you challenge the Commission's action in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the City, either at or prior to the public hearing.

Rendering of 527 North Palm Drive

## Design Review Commission approves two new single-family residences

The Design Review Commission conditionally approved two design permits at their August 4th meeting that will allow for the construction of two new single-family residences located at 527 North Palm Drive and 1729 Chevy Chase Drive.

"The overall impression is that it is a nice contemporary house that is in good scale and well proportioned...there is internal compatibility and all of the components relate to each other," said Commissioner Arline Pepp in reference to the North Palm Drive residence.

Both properties will be contemporary-style and two stories. Project applicants are able to begin construction provided that the conditions proposed by the Commission are incorporated and approved by the city's urban designer.

Examples of conditions proposed by the Commission include the revision of the landscaping plan to incorporate new hedges along the street-side elevation, as well as the addition of a pedestrian entryway other than the driveway.

The Commission also unanimously voted to continue the review of a design permit at next month's meeting for an additional two-story single-family residence located at 310 North Palm Drive.

The home will be Georgian/ Federal-style architecture.

Commissioner Ilona Sherman's biggest concern was the proposed use of 32 ficus and Indian laurel fig trees to create a hedge around the north side of the property and into the nearby alleyway.

She noted that they are two of the most aggressive and invasive species.

"They will [eventually] be imposing on the neighbor or imposing on the property because that's just the nature," Sherman said. "We all know that they look beautiful and everything but they have a tendency to uproot all the concrete on driveways."

A majority of the Commissioners felt the overall design needed work. Commissioner John Wyka suggested replacing the doors on the top level of the facade with windows to create less competition with the entrance as an additional vertical element.

"We really wanted balconies on top, and we couldn't even have full balconies," said homeowner Jack Massry in defense of the proposed doors leading to Juliet balconies.

Both Massry and the architect agreed to present a revised design at the September 1 meeting.

*briefs cont. from page 3*

phase is estimated to cost roughly \$50,000.

Then, during phase three, the recommendations would be memorialized in a written report and presentation to Council. Public noticing, appraisals and economic or feasibility studies would not be included in the total cost.

With attorney and former mayor Tom Levyn in the audience on behalf of his client Townscape, the Council indicated support for returning the deposit money. City staff is expected to fashion a program and process that better complies with the Council's recommendations.

"I would want to design a process that first asks the question: Where do we start this?" Gold said.

### Faculty and staff welcomed back; years of service honored

Beverly High hosted Opening Day last week, where Superintendent Steve Kessler addressed the construction on campus and received an award for 40 years of service.

"The upcoming year will definitely have

its challenges," Kessler said. "First and foremost is the modernization process that will affect all of our schools."

He was unafraid to admit that the construction will bring a few minor trials and tribulations, but ensured the audience that the safety of the students and the staff will remain the top priority.

"I can also assure you that once this process has been completed, we will have 21st century classrooms and facilities that will make us all proud to be part of the Beverly Hills Unified School District," Kessler said.

## NOTICE OF PUBLIC HEARING

DATE: August 23, 2016  
TIME: 7:00 PM  
LOCATION: City Council Chamber - Beverly Hills City Hall  
455 North Rexford Drive, Beverly Hills, CA 90210

The Planning Commission of the City of Beverly Hills, at a SPECIAL meeting on Tuesday, August 23, 2016, will hold a public hearing beginning at 7:00 PM to consider a request for a Specific Plan Amendment, Amendments to a Vesting Tentative Tract Map and Development Plan Review, and Development Agreement for the property located at **9900 Wilshire Boulevard (One Beverly Hills)**.

**Specific Plan Amendment.** The 9900 Wilshire Specific Plan was previously approved in 2008 and included 235 residential condominiums and approximately 15,856 square feet of retail and restaurant uses. The proposed project consists of revisions that would allow up to 193 residential condominiums and an up to 134 room luxury hotel with ancillary facilities, ballroom/meeting rooms, and restaurant/bar uses. The proposed project also includes a new motor court access along Santa Monica Boulevard. To allow these changes in use, amendments are required to the 9900 Wilshire Specific Plan.

**Vesting Tentative Tract Map and Development Plan Review.** The previously approved project included approval of Vesting Tentative Tract Map No. 67884 and Development Plan Review to subdivide the air rights to permit the individual sales of a maximum of 235 residential condominium units. The applicant is requesting amendments to Vesting Tentative Tract Map No. 67884 to reflect the revised site plan and revise the maximum number of residential condominiums to 193 units. All common interest developments also require approval of a Development Plan Review.

**Development Agreement.** The previously approved project included adoption of a Development Agreement. Revisions are being proposed to the Development Agreement in conjunction with the proposed project, and the Planning Commission may discuss and provide recommendations on the terms of the proposed revisions to the Development Agreement, as well as determine whether the Development Agreement is consistent with the City's General Plan.

This project has been assessed in accordance with the authority and criteria contained in the California Environmental Quality Act (CEQA), the State CEQA Guidelines, and the environmental regulations of the City. The City of Beverly Hills has prepared a Final Supplemental Environmental Impact Report (Final SEIR) to analyze potential environmental impacts associated with development of the project. Specifically, the Final SEIR analyzes the following potential environmental effects of the project:

- Greenhouse Gas Emissions
- Land Use Planning
- Transportation/Traffic
- Utilities and Service Systems
- Air Quality
- Noise
- Mandatory Findings of Significance

The Planning Commission will consider the Final SEIR, and may adopt a resolution recommending its certification to the City Council.

Any interested person may attend the meeting and be heard or present written comments to the Commission.

According to Government Code Section 65009, if you challenge the Commission's action in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the City, either at or prior to the public hearing.

### Mirisch calls for city involvement in USC business study

Following a request by Mayor John Mirisch, the city will participate in a study conducted by students of the USC Marshall School of Business MBA program comparing private and public-sector salaries and benefits.

A similar study performed by a consultant the city hired in 2014 was discontinued due to the difficulty of obtaining detailed salary and benefit information from private sector companies.

According to the staff report, since the study will be conducted by USC students, the cost to the city will be minimal.

### Mirisch, Goldberg, Howard named to BHHS Hall of Fame

At the City Council study session Tuesday, the Beverly Hills High School Alumni Association announced their 2017 Hall of Fame recipients: Beverly Hills Mayor John Mirisch '81 and his mother, philanthropist Wendy Howard Goldberg '57. # Q & A

## Mayor John Mirisch on his recent trip to China

**You recently returned from China. Who sponsored your trip?**

The U.S.-China Peoples Friendship Association. It's a major non-profit, and they've been doing this trip for a number of years.

[Councilmembers] Julian [Gold] and Lili [Bosse] have also gone on it. They're trying to achieve—as friendship societies do in sister cities—real connections between real people, and getting a chance to know the culture and to have an exchange of ideas. The delegation included State Treasurer John Chiang and mayors and elected officials from a number of

other cities, all of them in California with the exception of North Las Vegas.

**What was on your itinerary?**

In each place we would meet with local elected officials. In Beijing, we met with the Deputy Foreign Minister, and then in all of those other provinces we met with the governors. We met with the governor of the Shaanxi and the Guangdong provinces, we met with the vice governor of the Jiangsu Province, we met with the mayors and vice mayors of certain cities as well. We looked at a power plant that supposedly uses coal, but in a clean fashion. It was good to see there now seems to be a focus on clean energy and on cleaning up the environment and green technology. And

tech companies: we met with a company called Tencent, which has an app in China known as WeChat, which basically everybody uses. They use it to communicate with each other—it's almost like Facebook or Whatsapp. We met with [instant messaging site] Meebo, and a company that uses traditional Chinese medicine trying to create rejuvenation. They supposedly have treatments that make people look and feel younger, so that would be something that would be appropriate for Beverly Hills.

**Was there anything you learned**

**that you would like to explore within the context of Beverly Hills city government?**

I think the overarching theme is that it's great to have trade partners, but tourism is also important. The Chinese President Xi Jinping just declared this as the year of the tourist. Obviously it's great for our residents to have the chance to visit China, but we'd like to continue to work with our Conference and Visitors Bureau to have Chinese guests visit Beverly Hills. A lot of them already do, but we'd like to continue [promoting Beverly Hills] as an attractive destination for Chinese visitors. I think we're an attractive place for Chinese investment as well.

*“With 1.4 billion people, China is certainly one of the most important countries in the world, and it's important for us to understand each other. If we can become friends, it's much better for everyone. And clearly, the beginning of friendship is mutual understanding”*

**Like the Wanda Group?**

Absolutely. They're a very good example. They fit very nicely within our wheelhouse because I've always said we have a very strong connection with the entertainment business historically, from the very beginning, and Wanda is and has become one of the major players—not just in China, but worldwide in the entertainment business.

**Who were some of the people you met?**

Costa Mesa Mayor Steve Mensinger, North Las Vegas Mayor John Lee, Ontario Councilmember Alan D. Wapner, Artesia Vice Mayor Ali Taj, Oxnard Vice Mayor Carmen Ramirez, and Yorba Linda councilmember and former mayor Craig Young. It was very interesting to note that Yorba Linda is where [Richard] Nixon was born—the Nixon library is there—and Nixon remains extremely popular in China.

**Why are connections between countries important?**

Connections between countries are important because it's not only a global economy—it's become a global village. The more we are able to connect and find commonalities and common ground about what unites us, the world will not only become safer, but also more prosperous. China is one of our more important trading partners. With 1.4 billion people, China is certainly one of the most important countries in the world, and it's important for us to understand each other. If we can

China's Vice Foreign Minister Zheng Zeguang and Mirisch

become friends, it's much better for everyone. And clearly, the beginning of friendship is mutual understanding.

**What was the most memorable part?**

I don't know that I'd single out one thing. I'd been to China on numerous occasions, but aside from Beijing, I hadn't been to any of the cities we'd visited. It was a very whirlwind experience, but it was great to see some new parts of China. It was also great, as we were doing so, to be able to have locally elected officials from California there to exchange information so that we could discuss the sorts of things they were looking to achieve, including Chinese investment, and find commonalities. John Chiang, who was almost there for the whole time, did a great job as the delegation leader. I really enjoyed getting the chance to hear different perspectives on different issues from both American and Chinese officials.

## SWITCH IT UP!

### Beverly High grads launch jewelry rental service

By Mina Riazi

After graduating Beverly High, brothers Adriel (Class of '05) and Elliott Darvish (Class of '07) took on law school and investment banking before making the switch to Switch, a jewelry rental subscription service they beta launched earlier this summer.

#### What is Switch?

Switch is a jewelry rental subscription service. We have a few different plans, but the base plan is \$29/month for a piece of jewelry. You get to keep that piece of jewelry for as long as you want and exchange it as often as you want—shipping is always free both ways, and exchanges are also free and unlimited. We offer brands like Hermes, Chanel, Christian Dior and Jacquie Aiche. We're really the first players out there to offer these types of global, iconic brands. We beta launched earlier this summer and the initial response has been pretty amazing. In the beta phase, the objective is really to learn as much as possible about our members—their habits, what they're gravitating towards, what they like, what they don't like—so going into our hard launch, we're rolling on all cylinders.

#### You recently finished law school. Why jewelry?

I finished law school and even passed the bar exam, and had an offer from a law firm. My brother [Elliott] had a really amazing, successful investment banking job. The two of us always had a dream of doing something entrepreneurial together, and we watched our mom [Beverly High alum Farnaz Abrishami Darvish], who's a jewelry designer [Chains + Pearls]—which, for her, started out as a hobby after our dad passed away when we were younger—become pretty successful. My brother and I, being the business-minded people we are, became engaged with and

intrigued by the business side of what she was doing and how her clients and customers were responding. We noticed that the decision of buying a piece of jewelry is one that [the customers] often wrestled with, that they went back and forth deciding whether to actually buy something. Sometimes, they would deliberate—and those were the customers that could afford it. Others would fall in love with the jewelry and simply couldn't afford it. [At Switch], our jewelry is fine jewelry, and it's expensive. At the same time, we were really inspired by all the sharing economy players that have been changing our lives, like Airbnb, Uber and

even Spotify and Netflix. So far we've been very pleased with the experience—it's been very fulfilling and exciting.

#### You grew up in Beverly Hills. Tell us about some influential teachers.

I loved all of my Beverly teachers, but two that were especially influential were Madame [Irina] Kashper and [Loren] Newman.

I took French with Madame Kashper for three years. She was challenging but her passion and enthusiasm made the class fun and kept us engaged. It's so important to have that type of passion if you want to get the best out of those

around you.

[Loren] Newman was my ASB advisor for the three years I was part of student government. She was a mentor and friend more than anything else. I was lucky to be able to go to her for advice on just about anything.

#### What sets Switch apart from jewelry subscription services like Rocksbox?

Rocksbox is serving a completely different market than we are. Their jewelry

is lesser-known, emerging designers, and they have you take a style quiz and they surprise their members with what they send them. We give our members the ability to rank their favorites and pick and choose what they want to receive next. But what really sets us apart [are the brands we offer]. We have brands that are on Rodeo Drive.

The other jewelry rental subscriptions [offer] more generic, unbranded jewelry. There isn't much out there, so we really feel like we're filling a void and we're excited about it.

#### What has been the most challenging part of launching your business?

There are so many little things you would never consider anticipating when you do a startup. We are literally involved in every single aspect, from customer service to filling orders to web design to marketing. We are involved in everything from A to Z. While we may have heard it, it's something you never really understand until you fully experience it. It's a hustle, it's a grind, and we're constantly working—we never feel like we're not working. We're constantly on our phones, answering emails and it never really sleeps.

#### How do you choose what jewelry to feature?

We offer a highly curated collection that is first and foremost based on member feedback. We adjust our buying to that. Beyond that, we're all about taking feedback, seeing what's hot right now from stylists and fashion insiders, and then also trying to maintain a healthy balance of classics and trendier pieces, so that we can have something for everyone.

#### You told the *Los Angeles Times*, "The millennial experience values sharing over owning." Elaborate on that.

Ownership is really taking a backseat for the millennial generation. Even in real estate, we're noticing that millennials are more likely to rent than own. It's about owning an experience, not about tangible ownership. The [success] of companies like Uber, Airbnb and even Spotify and

Switch co-founders Adriel and Elliott Darvish

***"There are so many little things you would never consider anticipating when you do a startup. We are literally involved in every single aspect, from customer service to filling orders to web design to marketing. We are involved in everything from A to Z"***

Netflix, has really shown us that millennials are the sharing generation. And beyond that, we're a generation that

likes to maximize efficiency and maximize usage, and the thing with sharing is that you get to own something as long as you need it, or as long as you want it, and when you're done needing or wanting whatever that is, then it's time to move on. The sharing economy allows you to do that. What it means is we're savvier and smarter and always looking to improve upon the status quo.

#### Any advice for young entrepreneurs?

If you're really passionate about something, and really believe in something, pursue it. Clearly, at the same time, it's important not to be bullheaded and stubborn and to be realistic. Loving something is not enough, you need to actually believe in its ability to be successful and to be something special. But if you do your research and believe in something, then you should do it and challenge the status quo.

#### Where do you hope Switch will be in one year?

In one year we're hoping it will have gone viral, that it will be a nationwide phenomenon—maybe that word is a little strong, but [we hope to have] a strong and engaged user base that is excited about membership. [We hope to have] a very expansive collection. Our objective is to constantly improve and constantly grow. We don't think our job is ever done—whether it's one year from now or five years from now, the objective will always be to continue improving.

### BHHS Alum Plays For Raiders in Preseason Victory

Greg Townsend Jr., a 2011 Beverly Hills graduate, made his NFL preseason debut Friday night, playing 27 plays, 33 percent of the Oakland Raiders plays on defense, in their 31-10 victory over the Arizona Cardinals in Glendale, Arizona.

Townsend, a defensive end, tackled Arizona running back Elijah Perry after he ran for two yards on the next to last play of the game.

Townsend hit Cardinals fourth-string quarterback Jake Corker on a 13-yard pass completion to receiver Marquis Bundy earlier in the fourth quarter.

Townsend was signed by the Raiders as a free agent after being bypassed in the NFL draft following his college career at USC.

Townsend was placed on the physically unable to perform list on July 25 because of a hamstring injury and missed the team's first four practices. He passed his physical on Aug. 3 and began practicing with the team that day.

## COUNCIL APPROVES CONTROVERSIAL HILLSIDE ORDINANCE

### Meeting runs past midnight

By Madelyn Pariser

The City Council approved an ordinance regulating expansions of level pad areas of lots and development off the level pad of lots in the hillside area of the City during Tuesday's meeting.

"I have, for a long time, advocated design review in the Hillside Area, and while this doesn't directly address that, it certainly is going to put a check on development run amuck in that area," said Mayor John Mirisch. "As with the rest of the city, we need to preserve a special and unique character of Beverly Hills."

There will be a second reading of the approved ordinance at another meeting and if it is passed once again, it will go into effect 31 days later.

Only three of the five councilmembers were eligible to vote on the matter. Vice Mayor Nancy Krasne and Councilmember Lili Bosse were advised not to vote by City Attorney Larry Wiener because of the location of their homes.

"I think it sucks," Krasne said in reference to her refusal. "I got elected to represent these people and so did Councilmember Bosse and neither one of us have any economic reason for voting one way or the other."

The new ordinance changes the threshold for an R1 Review to 2,000

cubic yards of soil excavation on streets that are 24 feet or less in width. At least 14 streets fall into this category. The reduction in grading was included by the Planning Commission because residents on the narrower, winding streets are far more impacted by the movement of heavy haul vehicles than those on wider streets.

The ordinance also establishes a minimum dimension of 20 feet by 20 feet for any area to qualify as a "level pad" for the purpose of determining maximum allowed floor area. There is a maximum limit of cumulative floor area located off the existing level pad of 1,000 square feet, defined as the level pad that exists at the time of the adoption of the ordinance.

Many citizens attended the meeting to speak during public testimony. Dozens were in support of the ordinance including local resident Debbie Weiss who also started a petition two months ago in support of the new regulations.

"We support the Hillside Ordinance, which is about safe responsible building and seeks to eliminate some of the inefficiencies," Weiss said. "We live in fear for our safety. We are at the mercy of developers who abuse or simply ignore the codes and watch in horror as unsuitable projects ruin everything we love about living in the canyons of Beverly Hills."

Opposition showed as well. Several of those against the ordinance identified as architects, realtors, engineers and developers, but citizens also expressed their concerns about the reactionary nature of the ordinance.

"People go to the plan check into the Planning Department before they pull the permit to get some guidance, so it would be

grossly unfair to make this retroactive and put people through anxiety and stress [when they] have complied with the laws of the professionals simply because they didn't get around to paying their permit fees until June 13 or July 1," said attorney and Lago Vista Drive resident Ronald Richards. "The suggestion that there was a rush to get permits to avoid the ordinance is

just false. Most of the people that are being affected by this ordinance are the citizens that live here."

At the Planning Commission meeting June 9, the urgency ordinance was passed by a vote of 3-2. Fifteen minutes after its approval, former Commissioner Craig Corman made a motion to reconsider the action because his "concern [was] that an urgency ordinance that goes to the City Council has to have 4 out of 5 votes."

The new regulations will not apply to any project that has submitted complete building permit applications or a complete planning entitlement before the date of the ordinance, which is 31 days following City Council's approval.

***"I got elected to represent these people and so did Councilmember Bosse and neither one of us have any economic reason for voting one way or the other"***

The independent administration authority will be granted unless an interested person files an objection to the petition and shows good cause why the court should not grant the authority.

A HEARING on the petition will be held in this court as follows: 09/02/16 at 8:30AM in Dept. 99 located at 111 N. HILL ST., LOS ANGELES, CA 90012

IF YOU OBJECT to the granting of the petition, you should appear at the hearing and state your objections or file written objections with the court before the hearing. Your appearance may be in person or by your attorney.

IF YOU ARE A CREDITOR or a contingent creditor of the decedent, you must file your claim with the court and mail a copy to the personal representative appointed by the court within the later of either (1) four months from the date of first issuance of letters to a general personal representative, as defined in section 58(b) of the California Probate Code, or (2) 60 days from the date of mailing or personal delivery to you of a notice under section 9052 of the California Probate Code. Other California statutes and legal authority may affect your rights as a creditor. You may want to consult with an attorney knowledgeable in California law.

YOU MAY EXAMINE the file kept by the court. If you are a person interested in the estate, you may file with the court a Request for Special Notice (form DE-154) of the filing of an inventory and appraisal of estate assets or of any petition or account as provided in Probate Code section 1250. A Request for Special Notice form is available from the court clerk.

# Hotel rooms generate the best kind of revenue for the City

*Hotel taxes paid by guests stay in Beverly Hills and cannot be taken by the State.*

Since 1991, only 201 new hotel rooms have been built in Beverly Hills. The new Waldorf-Astoria replaces the same number of rooms being eliminated by the Beverly Hilton.

CBRE Hotels, the preferred hospitality consulting company for all Beverly Hills luxury hotels, analyzed the Beverly Hills hotel market. The 2016 CBRE Hotel Market Analysis concluded: One Beverly Hills "will not impact the Beverly Hills Luxury hotel market" as there is "significant unsatisfied demand."<sup>1</sup>

The CBRE study also determined that the 134-room boutique luxury hotel at One Beverly Hills will generate at least \$8.7 million a year in new revenue to the City at hotel stabilization.<sup>2</sup>

One Beverly Hills will help satisfy this pent-up hotel demand and will generate vital new revenue for our City.

This new revenue will support our vital city services including Police, Fire and Paramedics.
