"Ordaz sues over ballot statement on Hilton initiative" [Issue 882]

Every time I get a flyer or read an advertisement or get a phone call about the so-called Beverly Hills Garden and Open Space Initiative- or read an article about those trying to get this project built suing the City- I am reminded of the old adage, "You can't out-stink a skunk in a smell contest."

The distortions, half-truths, and outright lies promulgated by the "Residents" for

Council hires Greenberg Glusker firm as negotiator in One Beverly Hills deal

The Council achieved a consensus regarding the selection of Greenberg Glusker firm as the negotiator to assist the Development Agreement Ad Hoc the initiative, with major funding by Oasis West Realty LLC and the Beverly Hilton, never cease to amaze me.

One would think that Beny Alagem was gifting a new park to the residents of Beverly Hills, rather than trying to gain approval to build the tallest building in our City- taller than the Statue of Liberty- AND a private garden largely for hotel guests and private parties where an already approved building should go. The initiative to be put before the voters should be titled, "The Beny Alagem Skyscraper Initiative."

Even more disturbing is the corruption of formerly respected civic leaders, organizations, and the political process itself by Mr. Alagem's money.

I hope the residents see through the veil of misinformation and vote "No" on November 8.

Greenberg Glusker could best perform the negotiations based on their previous experience," the staff report stated. "Although the firm has limited negotiation experience on behalf of public agency, the Committee felt their past experiences representing developers on similar real estate and business transactions would make them a prime candidate."

Recreation and Parks Commission Chair Frances Bilak came forward as a member of the public to express concerns with the firm selection. She pointed out the firm submitted its application after deadline and that some individuals working for the Hilton and Wanda group are former employees of the firm.

Dale Goldsmith, former partner at Greenberg Glusker, is now on the legal counsel for the Wanda Group. Oasis West Realty President Ted Kahan is a former member in the firm. Kahan has worked for Oasis West for at least 10 years. "We felt that we did a very thorough job of asking questions, some of which respond to the concerns [Chair] Bilak had," Bosse said. "They do have municipal experience as well as development experience."

The last question every firm was asked during the interview process "was if they thought they were a flesh eating shark," Bosse said.

"I think the optics on this are strange," said Councilmember Julian Gold. "I think, whichever way this goes if people love the deal or hate the deal, the perception of conflict will likely exist by virtue of the relationships that are here. That makes me uncomfortable."

City Attorney Larry Wiener noted the issues regarding the personnel involved are not considered legal issues.

A request for a one-year time extension of the Development Plan Review Permit and Vesting Tentative Tract Map for a 7-unit condominium project on the property located at <u>462 South Rexford Drive</u>. The project was originally approved by the Planning Commission on June 14, 2007 and has received previous time extensions. The current one-year extension request would extend the existing entitlements until June 14, 2017. The request is being made pursuant to §10-3-207 and §10-2-206 of the Beverly Hills Municipal Code.

This project was previously assessed in accordance with the authority and criteria contained in the California Environmental Quality Act (CEQA), the State CEQA Guidelines, and the environmental regulations of the City, and a Negative Declaration was adopted. The original Negative Declaration continues to represent the independent judgment of the City, and no additional environmental review is required under CEQA.

Any interested person may attend the meeting and be heard or present written comments to the Commission.

According to Government Code Section 65009, if you challenge the Commission's action in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the City, either at or prior to the public hearing.

The Commission had not yet given notice to the residents living in the affected area of Spalding Drive; therefore, no resolutions were made.

"I asked this be put on the agenda because I was approached by several residents of Spalding who have a problem with the growth of the redwood trees as Roxbury, which are interfering with both their enjoyment of their property and the value of their properties," Rosoff said. "I wanted these people to come forward so that we could

and give appropriate notice to the people that might be affected by it."

In 1989 the City planted 31 Sequoia redwood trees running north to south in Roxbury Park, according to resident Kevin Davis. The trees do not exist anywhere else in the City or in Los Angeles as they are only indigenous to the northern regions of California, Oregon and Washington.

"An adult redwood consumes 3,000 gallons of water per year," Davis said. "That's 93,000 gallons per year for our 31 redwoods in a drought prone region in a city that is telling its residents to stop water their lawns and fining them if they use too much water."

Residents also expressed concerns regarding their diminishing views as a result of the growing redwood trees.

"We have almost a 180 degree view of both the city and the mountains," said resident Larry Goodman. "Over the past three years, our views have started to dissipate by probably 20 percent to 30 percent by now and we anticipate over the next three years we'll probably 35 to 40 percent of the view of the north and northeast."

The Commission agreed to revisit the issue at some point in October or November.

Planning Commission approves Christie's partial second story; requests more info on pet boarding at **Pussy and Pooch**

The Planning Commission unanimously approved a development plan proposed by Christie's Auction House, located at 332-336 North Camden Dr., during last Thursday's meeting for the construction of a 1,400 square foot partial second story addition to the existing building and five parking spaces upon entry into the City's in lieu parking program.

The plan required the overall height of the building to increase from approximately 20 feet 4 inches to 35 feet through the addition of the partial second story. In lieu parking was created as an option for

prospective developers, or those wishing to change the uses of existing buildings, to pay a fee in lieu of building the required amount of parking on-site.

"The proposed changes would modernize a dated façade on a prominent street in the Business Triangle," according to the staff report.

Managing Director Sonya Roth noted that the new Beverly Hills location will be unique from other Christie's because it will be primarily a retail space, as opposed to an auction house, and it will feature "exhibitions all the time."

Engel & Volkers Associate Manager Craig Rogers raised concerns about the level of noise during the beginning of construction.

The project would be subject to the city's regular construction noise standards which allow for construction to occur from 8 a.m. to 6 p.m. on Monday through Friday, according to Commissioners.

"I'd say this is a model project that other projects should follow," said Commissioner Alan Robert Block. "I find the architecture very attractive and wish you the best of luck."

The Architectural Commission previously viewed the façade and unanimously approved the design. The Council will be required to provide additional review of the proposed project.

Later on in the meeting, the Commission discussed a zone text amendment and conditional permit to provide overnight pet boarding services in the existing pet retail store Pussy and Pooch located at 9388 South Santa Monica Blvd but did not approve the request.

Currently, the code states kennels, defined as the keeping or harboring of more than four adult dogs or cats at one time, is prohibited.

"We've been asked to provide this service literally daily for the past three years," said Store Owner Rob Gaudio.

About 28 1/2 percent of the area was proposed for boarding with a 35-animal limit. The space includes cork flooring to minimize noise impacts to neighbors and UVC light technology that eliminates allergens, bacteria and viruses, according to the staff report.

"When dogs are taken care of professionally they don't bark, they don't fight," Gaudio said.

Vice Chair Lori Greene Gordon expressed concern about the number of staff members required to stay onsite with the animals overnight, especially in the case of an emergency.

"If we're going to put this as a zone text amendment then we need to be sure we have enough staff on the premises," Gordon said. "I would say three or more."

Although an emergency evacuation plan is not yet in place, according to Gaudio, one is required based off of the conditional permit.

"I went to the facility before the meeting and I was totally surprised by the caliber of this," said Chair Joe Shooshani. "I've been to some hotels that are not as nice as this."

Proposed site street frontage 332-336 North Camden Dr

briefs cont. from page 4

The Commission was unable to come to a consensus on either the parameters of the zone text amendment or the conditional permit mainly because of issues with langue regarding the ancillary use of space and parking conflicts with neighboring retailers.

It was determined more research by the Commission is necessary, and Commissioners also asked the applicant draft an emergency evacuation plan as well as solutions to the parking problems.

The Commission asked the applicant to return on Oct. 13.

Less noteworthy improvements were made in grades K through eight. Tedford noted there will be a new focus on math in the elementary schools, specifically in the third and fourth grade,

Beverly High improves standardized test scores; success credited to online test-taking

Beverly High had an increase in standardized test scores, according to results released by the California Assessment of Student Progress and Performance on Aug. 24

The high school improved in both English and math by 21 percentage points and 19 percentage points respectively.

During the first PTSA meeting of the year last Thursday, Principal David Jackson was proud to report the overall scores of BHUSD exceeded those of many other school districts and "left 'em in the dust.'

Much of the success was attributed to online test-taking. Throughout the year, students have taken many of their traditional exams online, which better prepares them for the new online format of the standardized tests, according Chief Academic Officer Dr. Jennifer Tedford. For the past two years, the standardized tests have been administered online.

Incoming BHBA Association President Howard Fisher leads organization into its 85th anniversary

How did you become President of the responsive to people's needs. For example, **Beverly Hills Bar Association?**

I've been active with the bar since about 1978, initially with the tax section and then with the business section as well. Then eventually [I] became a member of the board of governors and assumed a potion. They have a ladder, an executive committee, [that I] eventually applied for and was nominated and elected to the executive committee. It's a five year rotation. There are secretaries, assistant secretaries, first vice president, second vice president, president elect and then president.

What has changed most about practicing law since you became a lawyer?

I've been active [with the bar] almost

my whole career. I joined the BHBA in '78, but I passed the bar and was admitted in '76. From '76 to '77, I was living in England doing post graduate studies at the University of Cambridge in law. Probably the biggest change is law has become more of a business and less of a profession. The size of law firms, there was virtually no firms that were more than 100 lawyers, only a few firms were over 100 lawyers and those were the largest. Today to be considered a large law firm you probably need an excess of 1,000 lawyers. It's not unusual to hear the words "bil-

lion dollars in billing." I mean these are major businesses.

What do you consider the greatest challenge facing the organization?

The BHBA is one of the nation's shining lights. We're one of the most innovative of all the bars out there. Many bars are fading away, membership is down [and] they're having financial trouble. The BHBA has always focused on, and paid a lot of attention to its members, so it has been very

"Taylor has all these really great ideas that are going to come up that a lot of people are going to a lot bars experience the demographics, they call it the dumbbell, [with] a lot of very senior members and a lot of very young members. How do you address the concerns of everybody? Some bars have just been "here's what we've always done" and "here's what we're always going to do" and they're not doing well.

How is the Planning Commission both similar to, and different from, the Bar?

Like a lot of people in this town, I've been active in community matters for years, even decades. I was a Cub Scout leader for the local Cub Scout troop. I've been on the board of Temple Emanuel. I've been on the Public Works Commission

for the City. I've been on the Traffic and Parking Commission. I've been on the General Plan Committee for Hills, Beverly where I think over 200 residents participated in designing the future of the City. I've gone through Beverly Team Hills, which is the leadership program for the City, and I served on the Mass Transit Committee, which dealt with the subway coming through Beverly Hills, so I've been active with the City for years. [The distinctions are] the bar is obviously a voluntary trade organization,

which focuses not only on educating its members, but has the very large component of public service where we look at issues and matters that are of interest to the community and the judicial process and access to justice. We've always been a very active bar in terms of social action, and being active socially in your community is just an extension of that of course. The Planning Commission has a very specific

BHHS loses football season opener 54-0 Team to play host to Nordhoff Friday night By Steven Herbert

Beverly High began its 90th football season with a 54-0 loss at Oak Park in a nonleague game Friday night in Steve Geanakos' debut

as the Normans coach. Beverly Hills had 40 players in uniform, with five having playing varsity football before and about 15 never having played football before, Geanakos said after his first game as a varsity football head coach.

The Eagles benefitted from their speed and size advantages. Geanakos said.

"Oak Park probably had five or six kids faster than anybody on our team," Geanakos said. "They also had three or four linemen bigger than anybody on our team."

The Norman defense "gave up too many big plays," Geanakos said.

Despite the one-sided score "there were a lot of good things" for Beverly Hills -- "the effort of the kids, the ability to gain some yards," Geanakos said.

Norman running backs Alex Dennis and Sebastian Fanucci drew praise from Geanakos, along with defensive lineman Greg Carter and linebacker Michael Revah.

Beverly Hills has allowed 40 or more points in 14 of its last 18 games dating back to 2014 or scored seven points or less in seven

of its last 11 games dating back to 2015.

The Normans have lost six consecutive season openers and nine of their last 10, including a 40-6 loss to Oak Park last season.

What's Next?

The Normans are scheduled to play host to Nordhoff Friday at Nickoll Field. The opening kickoff is set for 7 p.m.

Geanakos said his goals for his team are to play error free and "do a better job catching up with them."

The Rangers were 2-8 last season and opened the 2016 season with a 38-20 loss to Hueneme Friday in a game it had 21 players in uniform, coach Lance Wiggins said.

Wiggins said he expects to Nordhoff to have 21 or 22 players in uniform Friday, with one or two players who missed Friday's game because of illness playing, but losing its starting left tackle to a rotator cuff injury that will probably sideline him for the season.

"We had 68 players signed up at one point in time and ... we got down to 26," Wiggins said. "Then we had some bad injuries and we've been hit with a sickness bug the last

Mayor John Mirisch appointed Councilmember Julian Gold and Councilmember Lili Bosse to arrange the logistics for an upcoming town hall debate associated with public outreach and education for the Hilton Condominium Tower Initiative during last Tuesday's study session.

The debate will be held in the Council Chamber, and all Council members were in favor of selecting the League of Women Voters of Los Angeles as the unbiased, neutral third-party moderator.

Former Mayor and North Beverly Hills Homeowners Association President Robert K. Tanenbaum requested permission to host a town hall meeting on the initiative in the Chamber, during a Council meeting on Aug. 16. The Council decided to put the item on the agenda to consider a possible public education program that would help educate residents about the initiative.

"We're going to have a town hall meeting, but I think it should be in this chamber," Tanenbaum said. "We would like to have [the meeting] on television. The Council used this room in order to take a position against the initiative."

The City Attorney's office advised the

charge, part of it is legislative, part of it is quasi judicial, and part of it is being a founding board and providing recommendations to the Council for example. We deal with zoning appeals, for example, that's quasi judicial. We deal with the Trousdale View Ordinance and again that's quasi judicial. It's very different and it's obviously very focused on the community. When you look at things the bar does we might look at greater social justice issues across the country. For example, Pakistani judges were being imprisoned and we took a very strong position against that, so that was even global. There is relatively little we do on the Planning Commission that extends beyond Beverly Hills or just likely beyond its borders. Things obviously like mass transit are community oriented for it's the whole of the Greater Los Angeles area. If we deal with buildings that are on the border between Los Angeles and Beverly Hills again they have slight impacts outside but pretty much it's a focus on the community and what's in the best interest of the community.

We interviewed outgoing BHBA President Howard S. Fredman in issue #833. He said, "My biggest challenge has to do with implementing our new [BHBA] dues structure, which just happened this past summer and is something that the Beverly Hills Bar is the first to attempt." What has the response been like to the higher membership fees?

What we did is really incorporated a lot of things required into the membership and [we] don't charge separately for it. Lawyers have to take so many hours of continuing education and the bar specifies a few very specific topics, like ethics. What we did is we packaged that and other things into the pricing, so our pricing actually went down if you are active with the bar. For example, we used to charge

Council to provide resources for a public potentially providing independent inforoutreach effort "as long as the information provided is objective and does not indicate a position on the initiative," according to the staff report.

"We [are] very against Mr. Tanenbaum being the moderator of this forum. Bob has been a formidable voice in our community.

think he's very opinionated and he has a tendency to occupy more space than anybody else in the room," said Southwest Homeowners Association representative Rose Norton. "I don't think it would

appropriate for him to debate our mayor." Norton and Tanenbaum ran against each other for Council in 1986.

Information regarding the initiative can currently be found on the City's webpage. Alternate outreach suggestions included city led education town hall meetings, other town hall meetings in alternate locations and the distribution of printed materials available on the website.

"I do agree we need to be fair and balanced, but I do not think we need to be neutral," Mirisch said. "We discussed

[about] \$65 or \$75 for a program that was held at the bar. It is now \$25. If you attended more than just two programs a year your dues went way down effectively, so there really wasn't an increase. And people like me who would maybe attend five or six programs a year because I practice in tax and business and real estate so it's not at all uncommon when there are 30 odd programs that might be of interest to attend five. The cost actually went down substantially.

Tell us about your family.

I practice law with my son, Alex, my oldest boy. He is a graduate of [University of] Michigan and Emory [University] and he has an NBA from Emory as well. [He graduated Beverly High] class of 2000 and [I graduated] class of '69. [My wife and I] are about to become grandparents shortly, at the end of September. It's pretty exciting times. My son, Merrick, is in the nail industry, like in

mation and I assume that would comply with the law. There's nothing wrong if individuals on the Council don't want to take a personal position, but on the other hand there is nothing wrong with the Council taking a position. I think the information we can and should be

providing people is alerting them there's a lot of information available online. I don't know that we should be creating our own. I agree that could cause some issues."

The staff report also stated it is anticipated that a City-wide mailer to promote a town hall

event would cost \$10,000. Ads in the local newspapers would cost \$2,000. An objective third-party moderator (such as a local facilitator or retired broadcast journalist) could range from \$5,000 upwards. Costs for Cable TV and the Park Ranger would be \$800.

"Spending \$5,000 of taxpayer money to have Ted Koppel or Dan Rather appear is kind of overkill," said Municipal League Chairman Thomas White.

The Council has not yet set a date for the town hall debate.

finger nails and polish. [He has] high end celebrity clients and does blogging, writing and marketing. He's a graduate of Boston University. I've been married for over 38 years to Francine, who's a dental hygienist and has worked almost her entire career in Beverly Hills. When people come before the Planning Commission, where three of the five of us are Beverly High grads, we have long histories with the community and our focus is the community.

What is one thing you would like to see accomplished by this time next year?

The organization is celebrating its 85th anniversary in the fall. I want to be a good shepherd and keep it on the path of trajectory it has been towards its 100th anniversary. I don't want to do anything crazy and major. It's a great organization and just like all organizations [I will] pay attention and move it on to the next stage of its life.

Reasons Wiggins offered for the smaller amount of students playing football at Nordhoff include "not a lot of people moving to Ojai because of housing issues" and the players "that played the last couple of years didn't have a good time."

Wiggins is in his first season as the Rangers coach. He coached their junior varsity team from 2005-2013 and was the offensive line coach in 2014. He was Westlake's junior varsity coach in 2015.

Admission will be free to all kindergarten

through eighth grade students from Beverly Hills Unified School District schools when accompanied by a paying adult.

The game is also Taco Night, with a plate of two tacos, one cheese quesadilla, rice, beans, chips, salsa and a drink available for \$10.

Girls' Volleyball

Beverly Hills def. Pacifica Christian, 25-12, 25-13. 25-18

The Normans were winners in their season opener Aug. 23 thanks to their "mental clarity," "taking care of our job and working hard sticking together as a team," coach Miranda

LeBrun said after the nonleague match at Beverly High.

"It was really a great start to the season," LeBrun said. "The girls showed a lot of positivity which is a good indicator of the future of our season."

Opposite Maytal Sarafian and libero Savannah Perry drew praise for their play from LeBrun.

The match was LeBrun's first as Beverly Hills coach. She also coaches at the Bel Airbased Sunshine Volleyball Club and had been an assistant coach with the boys' varsity and junior varsity teams at Palisades High.

What's Next?

The Normans are scheduled to play nonleague matches against New Roads today at 3:15 p.m. at Beverly High and at Buckley Tuesday at 4 p.m. and participate in the 27th annual Pasadena Poly Tournament Saturday.

ORDINANCE NO. 16-O-2706

AN INTERIM ORDINANCE OF THE CITY OF ALTERATIONS OF CERTAIN LOTS IN ALTERATIONS OF CERTAIN LOTS IN THE HILLSIDE AREA OF THE CITY AND DECLARING THE URGENCY THEREOF

THE CITY COUNCIL OF THE CITY OF BEVERIY HILLS HEREBY ORDAINS AS FOLLOWS:

Section 1. Legislative Findings.

Over time, the Planning Commission of the City of Beverly Hills has developed a greater concern for the impacts associated with landform alterations in the Hillside Area of the City. The Planning Commission's concerns stem from property owners' increasing excavation and exportation of earth material, and from property owners' increasing reliance on grading and construction of off-pad retaining walls to create larger projects. In particular, the Commission is concerned about heightened noise, traffic, and parking impacts resulting from truck hauling activities on winding, nar-row residential streets. On June 9, 2016, the Planning Commission held a duly noticed public hearing after which it adopted a Resolution recommending in part that the City Council include urgency provisions to fur-ther regulate landform alterations in the Hillside Area of the City in order to protect the health, safety, and welfare of the community. That resolution passed 3 to 2 but was subsequently rescinded in order to allow people more time to address the impacts of the

The City Council of the City of Beverly Hills shares the concerns raised by the Planning Commission, and finds that the excavation and export of significant amounts of earth material on lots adjacent to and accessed by narrow streets, warrants legislation to address those concerns. The City Council wishes to protect the status quo with respect to landform alterations, while new Hillside development standards are being adopted.

Because the public process of adopting standards for excavation in the Hillside Area of the City may be lengthy, and because even standards that are intro-duced this evening will not be effective for 30 days after a second reading, several projects might acquire vested rights prior to the effective date of the ordi-nance and therefore might frustrate the ultimate standards that may be adopted. The City Council wishes to both adopt an interim ordinance that will take effect immediately and help protect the status quo, and a permanent ordinance that will remain in effect while the standards are further studied.

Section 2. Authority

Pursuant to Government Code Section 65858, the City Council may adopt, as an urgency measure, an interim ordinance that prohibits any uses that may be in conflict with a contemplated zoning proposal that the City Council is considering, studying, or intends to study within a reasonable period of time. Pursuant to Government Code Section 65858 (f) the City Council finds that notwithstanding the prior adoption of an interim ordinance, this new interim ordinance is adopted to protect the public safety, health, and welfare from an event, occurrence, or set of circumstances different from the event occurrence or set of circumstances that led to the adoption of the prior interim ordinance. Specifically, fatal accidents involving con-struction vehicles on City streets have occurred since the prior interim ordinance was enacted, warranting closer project review and imposition of appropriate conditions of approval and mitigation measures. With more intense development experienced in the City additional safety issues associated with construction parking and traffic have arisen. Further, three slope instability issues requiring remediation in the Hillside Area have occurred in the last two years, again warranting closer project review and imposition of appro-priate conditions and mitigations. The prior interim ordinance was not based on the slope stability and fatal accidents that occurred after that prior interim or-dinance, or the recent intensification of development in the Hillside Area of the City, which has intensified to such a degree that consistency with General Plan policies is being implicated.

Section 3. Urgency Findings

The City Council finds and determines that there is an immediate threat to the public health, safety, or welfare, and that continued landform alterations in the Hillside Area of the City involving excavation and export of significant amounts of earth material on lots adjacent to and accessed by winding, narrow residential streets would result in that threat to the public health, safety or welfare. As described in Section 1 above, currently unregulated landform alterations on lots adjacent to and accessed by winding, narrow resi-dential streets could threaten the health, safety, and welfare of the community through the imposition of inappropriate construction-related impacts including, heightened noise, traffic, and parking impacts result-ing from truck hauling activities on winding, narrow residential streets as evidenced by the fatal accidents experienced in the City. Further, the more intense development more recently experienced in the City can result in inappropriate construction related impacts including the impacts set forth above. Allowing the planning commission to review each project for its construction-related impacts would mitigate these impacts to an acceptable level. To preserve the public health, safety and welfare, the City Council finds that it is necessary that this ordinance take effect immediately to prevent such harm.

Section 4. General Plan.

The Ordinance is consistent with the objec-tives, principles, and standards of the General Plan. General Plan Policy Land Use 1.1 "Scale of the City" calls for regeneration of the City within the general framework of the existing scale. Land Use Policy 2.3 "Hillside Development" calls for maintaining the natural landforms that define the City and requiring that development on hillsides and in canyon areas be located, designed, and scaled to respect the natube located, designed, and scaled to respect the natu-ral topography and landscape. Land Use Policy 5.1 "Neighborhood Conservation" calls for maintaining the density, character, and quality of the City's residential neighborhoods. Land Use Policy 6.1 "Neighborhood Identity" calls for maintaining the characteristics that define the City's single-family neighborhoods. Open Space Policy 1.1 "Resource Preservation" encourag-es new development on billsides to preserve natural es new development on hillsides to preserve natural land formations. Open Space Policy 6.1 "Protection of Scenic Views" seeks to protect scenic views. Open Space Policy 6.5 "Standards for New Development" seeks to ensure that new development does not adversely impact the City's unique urban landscape.

Section 5. Added Regulations

The City Council hereby adds a new subsection C to Section 10-3-2521.1 to Article 25 of Chapter 3 of Title 10 of the Beverly Hills Municipal Code to read as follows:

10-3-2521.1: DEVELOPMENT STANDARDS FOR LANDFORM ALTERATION, EXPANSIONS OF LEVEL PAD AREAS OF LOTS AND DEVELOPMENT OFF THE LEVEL PAD OF LOTS

C. Notwithstanding any other ordinance or provi-sion of the Beverly Hills Municipal Code, including but not limited to Section 10-3-2521, within any five (5) year period: no more than one thousand five hundred (1,500) cubic yards of earth material may be imported or exported from a site in the Hillside Area that is immediately adjacent to a street that is less than twenty four (24) feet wide, unless a Hillside R-1 Permit is issued pursuant to Section 10-3-2550.A. of the Beverly Hills Municipal Code.

Section 6. CEQA Findings.

The City Council hereby finds that it can be seen with certainty that there is no possibility that the adoption and implementation of this Ordinance may have a significant effect on the environment. This Ordinance does not authorize construction and, in fact, imposes greater restrictions on certain develop-ment in order to protect the public health, safety and general welfare. This Ordinance is therefore exempt from the environmental review requirements of the California Environmental Quality Act (CEQA) pursu-ant to Section 15061(b)(3) of Title 14 of the California Code of Regulations. The City Council also hereby finds that this Ordinance is exempt from CEQA pursu-ant to Section 15308 of Title 14 of the California Code of Regulations, because this Ordinance is adopted to assure the maintenance and protection of the environ Ordinance does not authorize construction and, in assure the maintenance and protection of the environment, and enacts more strict development standards for the protection of the environment

Section 7. Severability.

If any section, subsection, subdivision, sentence, clause, phrase, or portion of this Ordinance or the application thereof to any person or place, is for any reason held to be invalid or unconstitutional by the fi-nal decision of any court of competent jurisdiction, the remainder of this Ordinance shall be and remain in full force and offect force and effect

Section 8. Approval and Extension of Ordinance

This Ordinance, being an Interim Ordinance adopted as an urgency measure for the immediate protection of the public safety, health and general welfare, containing a declaration of the facts constituting the urgency, and passed by a minimum four-fifths (4/5) vote of the City Council, shall take effect immediately upon its adoption and shall continue in effect for a period of not longer than forty-five (45) days. riod of not longer than forty-five (45) days. After notice pursuant to Section 65090 of the California Government Code and public hearing,

the City Council may extend the effectiveness of this Interim Ordinance as provided in Government Code Section 65858.

Section 9. Publication.

The City Clerk shall cause this Ordinance to be published at least once in a newspaper of general circulation published and circulated in the City within fifteen (15) days after its passage in accordance with Section 36933 of the Government Code, shall certify to the adoption of this Ordinance and shall cause this Ordinance and his certification, together with proof of publication, to be entered in the Book of Ordinances of the Council of this City.

Environmental sustainability is more than just a phrase at One Beverly Hills

The design of One Beverly Hills will incorporate environmentally sustainable features in order to achieve, at a minimum, LEED[®] Silver certification under the U.S. Green Building Council's Rating System.

State-of-the-art greywater reclamation technology will be integrated throughout the property to maximize the reuse of precious water resources.

Sustainable native landscaping and weather-based irrigation systems will significantly decrease watering needs.

Advanced technologies, including passive heating and cooling systems and high-efficiency/ low-energy LED light fixtures, will reduce overall electricity consumption.

Site-specific architectural features will harness daylight and prevailing westerly breezes to create naturally illuminated and ventilated interiors.
